EDUCATION

University of Minnesota

Computer Science, Economics, Bachelor of Arts

Aug. 2024 – Dec. 2026

Minneapolis, MN, USA

University of Michigan

Computer Science, Master of Science

Admitted, incoming

Ann Arbor, MI, USA

RESEARCH EXPERIENCE

Research Assistant

Heller-Hurwicz Economics Institute, UMN

Apr. 2025 – Oct. 2025

Minneapolis, MN, USA

- Used Python and Stata to clean, merge, and analyze large-scale administrative datasets on healthcare access, provider competition, and Medicaid participation across U.S. states
- Built automated workflows for regression models and summary statistics to evaluate public policy mechanisms.
- Presented findings through poster sessions and public seminars; strengthened academic communication and data storytelling skills.

Research Assistant

University of Minnesota Libraries

Mar. 2025 – Jul. 2025

Minneapolis, MN, USA

- Participated in literature review, organized 50+ related papers, and helped the team understand the current research trends of crowdsourcing psychological interventions.
- Designed a research questionnaire and assisted in establishing and refining the core framework of the study.
- Facilitated the collection of feedback and suggestions from current UMN students regarding the use of digital technologies on the existing library homepage; subsequently compiled and analyzed user data, drew actionable conclusions, and co-authored a research paper.
- Played a pivotal role in the subsequent update of the UMN Library homepage.

PUBLICATION

Hanlu Zhang, Yuan Gao, Ruijie Zhu, **Han Wu**, Shicheng Zhou, and Jiangtian Pan. **Dynamic Attention-Guided Video Generation from Text with Multi-Scale Synthesis and LoRA Optimization**. *ISCATI 2025, IEEE*, pp. 313–316, March 2025.

L. Costello, K. McManus, and **Han Wu**. **Investigating Proactive Chat: Exploring Potential Users and Accessibility**. *RUSQ: A Journal of Reference and User Experience*, in press.

Yuzhen Lin, Ivonne Xu, Qi Hu, Ge Zhang, Yajin Li, Yuan Gao, and **Han Wu**. **ProtoHGC: Heterogeneous Graph Contrastive Learning with Prototype-Regularized Classification for Transaction Fraud Detection**. Manuscript under review.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, C++

Frameworks & Libraries: React, Next.js, Node.js, Vite, Tailwind CSS

Databases: PostgreSQL, Redis

Developer Tools: Git, Docker, Docker Compose, Prisma ORM, Railway

Cloud & Services: AWS (EC2, S3, RDS, SES), Twilio

APIs & Testing: RESTful APIs, tRPC, WebSockets, Vitest, Playwright
